An Equal Opportunity Employer

Indiana's non-seasonally adjusted unemployment rate for May is 3.0 percent, one and one-tenth percentage points below the national rate of 4.1 percent, Craig E. Hartzer, Commissioner for the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during May 2001 was 3,030,000.

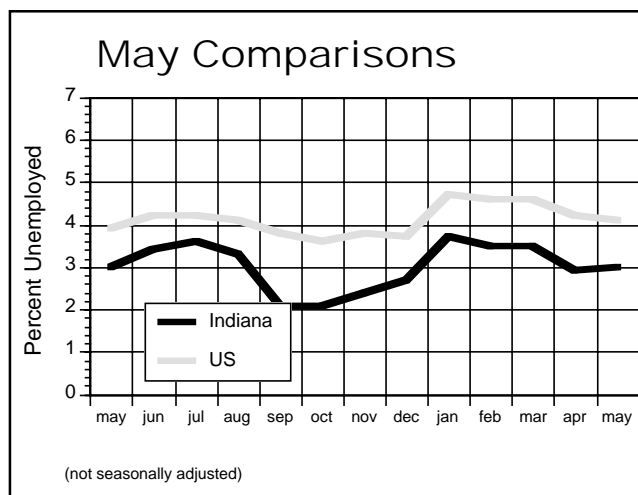

Indiana's May unemployment rate was lower than Illinois, 5.0 percent; Ohio, 3.6 percent; Kentucky, 4.1 percent and, Michigan 4.6 percent.

"Even though Indiana experienced a slight increase in its May unemployment rate, continued growth in the construction and goods producing sector helped to partially offset the decline in manufacturing jobs over the past year," commented Hartzer.

The monthly survey of 7,500 Hoosier employers reports payroll employment at 3,024,800, a decrease of 21,200 from one year ago. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 668,600 in May, a decrease of 22,000 from last year. Motor vehicle manufacturing accounts for 95,800 jobs, 8,000 less than one year ago. Manufacturing of motor vehicle parts totals 61,700. Industrial machinery manufacturing in May accounts for 72,600 Hoosier jobs, 100 less than April.

Construction employment totals 157,900 an increase of 4,900 from last month. Of that, heavy construction reports 19,100 jobs, an increase of 1,200 from April.

(over)

Service producing employment totals 2,192,200 in May, 400 less than last year. Transportation and public utilities total 148,100, or 900 less than April.

Retail trade totals 556,900, 8,500 less than a year ago. Of that, general merchandise stores report employment of 79,700, or 3,000 less than last year. Service sector employment, such as business services, computer and data processing, totals 770,800 in May, which is 11,800 more than the previous year.

Indiana's estimated labor force (the number of people 16 years of age and older who are able and available for work) totals 3,122,700 in May 2001. An estimated 3,030,000 Hoosiers are employed and 92,700 are unemployed.

Indiana's labor force for May 2000 totaled 3,099,500. Hoosiers employed one year ago is estimated at 2,995,600, and May 2000 unemployed in Indiana totaled 103,900. Indiana's estimated unemployment rate one year ago was 3.4 percent, compared with the national unemployment rate of 3.9 percent in May 2000.

Industry Payroll Employment

Selected Categories	May 2001	Change from Apr. 2001	Change from May. 2000
Goods Producing	832,600	+7,500	-20,800
• Construction	157,900	+4,900	+1,300
• Manufacturing	668,600	+2,400	-22,000
Service Producing	2,192,200	+15,900	-400
• Retail Trade	556,900	+4,500	-8,500
